- The Chair addresses the current agenda items (welcoming motions as required).
- The Chair summarises any new items as a result of the meeting.
- The FIRST Board of Directors shall adopt the below decision-making life-cycle for any new proposals brought before them.

Life-cycle of a proposal brought before the Board of Directors

- **Recognition** - an idea (put forward by an Board of Directors member, directly by the membership or by the membership via the proxy of an Board of Directors member) is verified as coming from a reliable source (ie a FIRST member or someone with a vested interest in FIRST activities) and recognised (through discussion) as being in support of FIRST mission and goals.
- **Consideration** - a debate by the Board of Directors regarding the merits of the proposal then follows in which the value of the idea is determined.
- **Notation or Action** - following the consideration (during which a motion may be made), a proposal is delegated for simple notation (to be considered at a later time or not to be considered at all) or for action at which time the proposal needs to be assigned a priority.
- **Notation** - simply leads to minuting the proposal and the decision process which resulted in the proposal not being actioned.
- **Action** - leads to the planning of a project or task, including the determination of objectives, the scoping and marketing (i.e. the gathering of sufficient support in human resources and skill), probable timelines and then the allocation of resources (both financial and human) once support has been gained.
